

Fauzan & Rachma Wedding Website PRD

Product Requirements Document (PRD)

Wedding Website — fauzan.rach.es

Vision

Create a minimalist, elegant, mobile-first wedding website announcing the marriage of Fauzan and Rachma on June 6, 2026.

Core Brand Identity

Domain: <https://fauzan.rach.es>

Tone:

- Warm
- Elegant
- Personal
- Modern Islamic aesthetic
- Minimalist

Core Story Line

"We met during undergrad — never realizing the story would lead us here."

Primary Goals

1. Announce the wedding clearly
2. Share all event logistics
3. Provide RSVP access
4. Reflect the couple's story and personality
5. Create a memorable digital keepsake

Target Audience

- Family
- Friends
- MIT and university community
- International guests

Technical Architecture

Recommended Stack:

- Next.js
- Tailwind CSS
- Framer Motion
- Static deployment via Vercel

Core Site Structure

1. Hero Section
2. Our Story
3. Event Details
4. Venue & Logistics
5. RSVP
6. Gallery
7. FAQ
8. Footer

UX & Design System

Design Direction

The website should feel:

- Calm
- Sophisticated
- Intimate
- Lightweight
- Mobile-first

Visual References

Inspired by:

- Editorial wedding websites
- Apple-like whitespace
- Soft cinematic transitions
- Elegant serif typography

Color Palette

Primary:

- Ivory (#F8F5F0)
- Warm Beige (#DCCFC0)
- Sage Green (#A8B2A1)
- Soft Gold (#C6A664)
- Charcoal (#2E2E2E)

Typography

Headings:

- Cormorant Garamond
- Playfair Display

Body:

- Inter
- Manrope

Hero Section UX

Content:

- Fauzan & Rachma
- June 6, 2026

- Short quote:

“We met during undergrad — never realizing the story would lead us here.”

CTA Buttons:

- View Details
- RSVP
- Add to Calendar

Visual Layout:

- Full-screen hero image
- Centered typography
- Soft fade-in animations
- Mobile optimized

Our Story UX

Format:

- Short editorial narrative
- Minimal scrolling
- Timeline cards

Suggested Timeline:

- Met during undergrad
- Became close friends
- Built life together
- Engagement
- Nikah

Event Details UX

Sections:

- Akad / Nikah
- Reception / Gathering
- Schedule
- Dress code
- Parking information

Recommended Layout:

Two-column responsive cards.

Venue UX

Include:

- Embedded Google Map
- Parking notes
- Transit guidance
- Nearby accommodations

RSVP UX

Recommended:

Use embedded Google Forms or Tally.so

Fields:

- Guest name
- Number attending
- Dietary restrictions
- Notes/message

Gallery UX

Layout:

- Masonry grid
- Soft hover transitions
- Lightbox support

Photo Style:

- Warm
- Film-inspired
- Natural lighting

FAQ UX

Suggested Questions:

- Dress code
- Parking
- Ceremony timing
- Children policy
- Contact person

Footer

Include:

- Couple names
- Wedding date
- Short du'a or blessing
- Contact email

Accessibility Requirements

- Mobile-first responsive design
- Proper color contrast
- Semantic HTML
- Keyboard accessibility
- Optimized image loading

Performance Requirements

- Lighthouse score above 90
- Optimized images
- Minimal JavaScript bundle
- Lazy-loaded gallery

Deployment

Recommended:

- Vercel deployment
- GitHub repository
- Custom domain configuration

Future Enhancements

- Digital guestbook
- Multi-language support
- Livestream support
- Wedding photo archive
- QR invitation integration

Success Criteria

The website succeeds if:

- Guests can understand logistics in under 2 minutes
- Website feels elegant and personal
- Mobile experience is smooth
- RSVP process is frictionless
- Site becomes a memorable keepsake
